MRS. HENRY STARY DIES IN CALIFORNIA

FORMER DIXON LADY PASSED
AWAY IN CLARA BARTON HOS-
PITAL, LOS ANGELES.

WAS AGED ABOUT 75 YEARS

Leaves Husband and One Son, Lee
Stary—Two Cousins Reside
In This City.

Los Angeles, Cal., June 23.—Special to Telegraph—Mrs. Mira Stary, wife of Henry Stary, both of whom were former residents of the Bend, near Dixon, Ill., passed away at the Clara Barton hospital, this city, on June 20th.

This news will surprise many people in Dixon. The Starys moved to California about two years ago on account of Mr. Stary's poor health, who had been ill for years. The health of Mrs. Stary was always considered good by friends here.

Beside her husband Mrs. Stary leaves one son, Lee Stary, who resides in California. Wilbur Crawford and Mrs. John C. Leake of this city are full cousins, the only near relatives here. Her brother, Joseph B. Crawford, veteran of the civil war, lives at Clinton, Ia.

The Starys resided on a farm in the Bend, near here, for more than 25 years and were prominent in that community.

Deceased was about 76 years of age. Her eldest son, Harry, died at the age of about five years.

It is not known if the remains will be brought here for burial.

The Starys reside at present at 173 E. 45th street, Los Angeles.

BIRTHDAY POUNDING MAY RESULT FATALY

BOYS SHOULD READ THIS AND
TAKE HEED—NINE YEAR OLD
BOY IS VICTIM

The following item clipped from the Belvidere, Ill., Republican, shows what grave conditions may result from a little thoughtless roughness on the part of boys toward one of their number:

In the case of Marvin Smith, nine years of age, son of Mr. and Mrs. W. A. Smith, and very low with typhoid pneumonia at the family home on North State street, it is thought little hope for recovery can be entertained. A consultation of physicians was held this forenoon with the result above stated.

The lad's sickness dates from his birthday anniversary June 9. It is said that at that time he was pummeled by his schoolmates in celebration of the event, a custom quite common among school boys. The next morning the boy went into convulsions and symptoms of the disease immediately followed. He has been since the beginning of the attack in a semi-conscious condition nearly all the time.

WILD ANIMAL CIRCUS

HERE ON JULY 14TH
Advance representatives were in Dixon Saturday to make arrangements for the appearance of the Al. G. Barnes three ring wild animal circus on Monday, July 14th, afternoon and evening.

There are 350 animals with the circus, each of which is a performer. Among them are a herd of elephants, camels, royal Bengal tigers, pumas, bears, leopards, jaguars, hyenas, zebras, monkeys of every known species, dogs and ponies. With this show may be seen more animals than ever collected before at one time and offered for exhibition either in this country or abroad.

SEE HARMS FOR

AUTO DECORATIONS
Dixonites who intend to take part in the big auto parade on the evening of July 4th, and who wish to secure novel decorations for their cars should see Herbert Harms at the Wilbur Lumber company office. He will inform them of places where expert services can be secured at reasonable figures.

Dublin, Ga., June 23.—Special to Telegraph—Three negro suspects of the killing of J. T. Howell and his wife this morning near here were rushed to Macon for fear of lynching. Several bloodhounds led the way to the negroes' cabin.

Washington, D. C., June 23.—Special—Representative Glass, chairman of the House committee on banking and currency, made public here today the digest of the administration currency reform bill. A federal reserve board will control the issuance of new currency. There will be no retirement of existing national bank currency nor bonds for circulating purposes.

URDAY AFTERNOON.

Mr. Miller has mailed a letter to every town treasurer urging all to be present at the meeting.

DIXON CHILD PICKED UP BY STERLING POLICE

JENNIE ALBU TELLS FISH STORY
TO OFFICIALS—BROUGHT
BACK HOME.

A ten year old Dixon girl was picked up by the Sterling police last evening and taken care of over night. Her name is Jennie Albu. Our city directories contain no such name. The girl's father went to Sterling and brought the child back home. She told the Sterling police that her mother was dead and that her father was cruel to her. She also told the officers that a lady gave her fifty cents to buy car fare to Sterling. All of the child's story was found to be untrue. In some manner she came into possession of a ticket to Sterling and boarded a car for that place, presumably just to be going somewhere.

AMBOY TO ENTERTAIN MANY THURSDAY

RACE MATINEE AT THE FAIR
GROUNDS WILL BE BIG
EVENT OF WEEK.

If the weather permits Amboy will entertain a large crowd on June 26. This is the day of the race matinee. This race will be interesting. There are a number of fast horses entered and liberal purses are offered.

One o'clock sharp is the hour set for the program to commence at the fair grounds. There will be a nominal admission fee.

The Dixon Marine band will play concerts afternoon and evening, and later in the evening there will be a dance.

Dixon will send a large delegation and as many of the farmers own automobiles, and this is true of residents of the villages throughout the county, this matinee should attract many people.

Secretary Wm. Leech declared today that the prospects for good races were never better.

Don't forget that this race matinee will be held on Wednesday of this week.

MOTHER IS ILL.

Mr. and Mrs. Leonard Blass and son Harold went to Mendota today to see the former's mother, who is quite ill.

NEAR LYNCHING AT BELVIDERE

DRUNKEN BRUTE HAD KEPT BOY
CONFINED IN HOUSE AT NIGHT
—BOY ESCAPED.

Belvidere, June 20. —That Jerry O'Brien, twenty-five years of age, a recent arrival here from Chicago, is alive today is probably due to the fact that the men who caught him last night after he had kidnaped Charles Ames, were cool headed and handed him over to Policeman Elmer Smith. O'Brien was held to the grand jury in bonds of \$1,000 by justice Fox today charged with unlawfully detaining and confining Charles Ames, the fourteen year old son of George Ames, a prominent dry goods merchant. The boy was going home from a party at 11 o'clock last night when he met O'Brien, who was drunk. O'Brien grabbed him and told him that if he made an outcry he would kill him. The boy is small and slight, and in fear accompanied the fellow, who took him to a house on Sixth street, locked the doors, made the boy undress and get into bed, himself getting into bed from the outside. The boy was terrorized but managed to keep the man away until the fellow sank into a drunken slumber.

The boy was afraid to move, but finally at about 3 o'clock this morning an alarm clock went off and did not rouse the man. Then young Ames, who is a Boy Scout, heard a Scout whistle in the distance. His companions were searching for him, and he crawled from the bed and got the door open. He was unable to get the screen door open and finding an old knife he cut his way through it and crawled out, clad only in a union suit. Hearing the whistles sounding he ran in their direction and found half a hundred men and boys searching the south part of the city for him. He led the party back to the house and the door was broken in. O'Brien was still asleep, but was dragged from the bed. The father of the boy knocked him down and O'Brien begged for his life. He was told that there was a rope outside for him and he wept and begged for mercy, saying that he had not harmed the boy.

AUTOMOBILE PARTY HAVE NARROW ESCAPE FROM AWFUL DEATH

DUBUQUE PEOPLE STRUCK BY
SWITCH ENGINE NEAR THE
GALENA AVE. BRIDGE.

AUTO WITH OCCUPANTS
DRAGGED THIRTY FIVE FEET

Damage to Car Will Be Around \$500
—Occupants Badly Frightened
But Escape Injury.

H. B. Glover and wife and Miss Frances Couch and chauffeur of Dubuque, Ia., in a Hudson 35, had a narrow escape from death on the railway crossing near the Galena avenue bridge at 3 o'clock this afternoon, when the Illinois Central switch engine hit their car, damaged it several hundred dollars worth and dragged the car with its occupants about 35 feet.

Mr. Glover and family were returning from Chicago and expected to reach Clinton spend the night. They were going down the Galena avenue hill at slow speed and did not know of any railroad crossing. A street car was standing on the south side of the crossing waiting for the switch engine to pass. The driver of the automobile not knowing of the crossing drove on the right and just got the front wheels on the railway track when the engine struck the auto, nearly throwing the occupants from the car.

The flagman was on the left of the street car and did not know of the approach of the auto and the driver of the automobile did not see the flagman.

It was indeed a miracle that all the occupants of the auto were not ground to pieces beneath the locomotive. The engine was running slowly which, perhaps, is all that saved the lives of the four people.

Mr. Glover, retired, is connected with the Glover Overall company of Dubuque.

About a week ago Mr. Glover and his party spent a day in Dixon, stopping at the Nachusa house. They had been visiting in Chicago and were on their way home.

DEKALB TO WAGE WAR AGAINST FLIES

CITY COUNCIL APPROPRIATED
\$300 FOR USE OF SULPHATE
OF IRON.

The DeKalb council Saturday appropriated \$300 to wage a war of extermination against flies. This was the first formal action for the purpose taken by any city in America.

Dr. O. J. Brown proposed the anti-fly campaign to the council several weeks ago. While the council placed the duty of extermination nominally on Dr. J. B. Hagey, health officer, Dr. Brown will direct the actual operations.

Sulphate of iron will be sprinkled upon every breeding place in the city at frequent intervals, especially after a rain. This process is expected to kill the fly larvae and rid DeKalb of the dangerous pest. The system is that used in the Panama Canal zone.

While the cost of the campaign for the season may reach \$500, DeKalb will experiment with the appropriation of \$200.

WOODMEN PROTEST AGAINST ARTICLE

OFFICERS OF CAMP 56 SAY EX-
PLANATION IS DUE THE
MEMBERS

The following signed article of explanation concerning Woodcraft was given to the Telegraph today for publication:

The officers of Woodman Camp 56, after reading the article in one of the local papers under date of June 21, in regard to the proposed referendum, think that an explanation is due the members of Woodcraft.

In the July issue of the Woodman paper which every member will receive will be eight questions asked and the neighbors are to vote one of them.

This vote will have no effect on the rates whatever as the question cannot be settled until after the next head camp meeting.

This vote is gotten up by the head officers and they will try and get out as many votes for the raise in rates as possible. Therefore it is necessary that we get out as many votes against them as possible.

We recommend therefore that every neighbor of Camp 56 vote proposition No. 3, which is as follows: "I am in favor of the old rate without any change." We also request every neighbor in the county to vote the same, also every one who reads this article.

We will briefly explain our position. The Modern Woodman society was organized 30 years ago and in that time 37 assessments have been skipped making a total of three years and one month. On the first day of February this year there was a reserve of \$12,000,000 on hand and all claims have been paid. If this reserve can be piled up skipping this number of assessments what reserve can we accumulate with an assessment every month?

At the rate we are going there is no necessity of a raise of any kind before 1920.

BLASTING KILLS ROCK FALLS BABES

STERLING PAPER SAYS UNBORN
INFANTS ARE AFFECTED BY
BLASTS

Sterling Standard:—The government scientists are likely to be called upon to settle a very grave question concerning the effect of dynamite blasts upon the lives of unborn infants in Rock Falls recently.

It is being directly charged that the blasting done in digging the rock channel east of the government lock is responsible for the death of one infant and indirectly responsible for the death of another and it is now announced that the matter is going to be presented to the proper department for investigation, according to some of those who are making complaint about the blasting.

In the case of one infant it is alleged that the blasting carried on for several months last summer so affected the mother of the infant who resides near by, that it was marked, and died a few days after being ushered into this world.

Captain Wheeler was asked this morning if he had heard anything about any such charges and he said that about April 1 a baby had been born in a home near where the work was being carried on and that later it died. He said that he understood that the baby was abnormal and weighed but two and a half pounds at the time of its birth.

In the other case the Captain had heard nothing whatever about the life of the infant being endangered by the blasting.

Further Captain Wheeler stated that work of blasting the rock out of the channel east of the new lock is about done and that work on it will be stopped in a few days.

FIREMAN SCALDED AT NELSON SUNDAY

CRAWLED UNDER ENGINE AT
NELSON AND WAS CAUGHT
BY HOT STEAM.

O. E. Wade, the fireman on train No. 133 on the Northwestern road, was painfully scalded while working under his engine at Nelson yesterday and is now in the Sterling hospital, where a fight is being made to save his eyesight.

Wade crawled under the engine to clean the firebox and in some way a cock was turned which permitted the boiling water to pour from the boiler onto his body.

The unfortunate man was rushed to the hospital and an examination showed the worst of his burns to be on the face and shoulders and it was feared that his eyesight might be affected by the compound used in the engine boilers.

TETANUS FATAL TO RIDOTT FARMER

WILLIAM AUER, AGED 40 SUC-
CUMBED AT ST. FRANCIS
HOSPITAL

Freeport, June 21.—William Auer aged 40 years, died a victim of lock jaw at St. Francis Hospital, Friday morning at 5 o'clock. Tetanus developed from the injury to Mr. Auer's left hand received on Monday morning June 9th, at the farm of Fred Miller, north of Ridott. Mr. Auer was operating a corn sheller and accidentally caught his left hand in the chain of the machine, the ends of three of his fingers being crushed.

He was brought to St. Francis hospital in this city, where Dr. K. F. Snyder amputated the ends of the injured fingers. Mr. Auer has operated a corn sheller for many years, but this was the first time he had ever met with an accident while handling a corn sheller.

Mr. Auer improved rapidly and left the hospital, but on Tuesday of this week, when it was found that tetanus had set in, he was forced to return again and he gradually grew worse until his death.

AMBOY YOUNG MAN ARRESTED ON SERIOUS CHARGE SUNDAY MORN

HIS VICTIM WAS MARY WERNICK
AGED 16 YEARS, OF THIS
CITY.

BOUND OVER TO
GRAND JURY UNDER \$750

Unable to Furnish Bail, Lodges in
County Jail—Young Woman's Res-
cue Due to Her Screams.

Mary Wernick, the 16 year old daughter of Mr. and Mrs. Lawrence Wernick, living on Madison avenue near Tenth street, was rescued from the clutches of a man-beast, according to her story, when her screams brought her father and others to her rescue Saturday evening as she was being assaulted in the back yard of her father's home.

The man charged with the crime, George E. Harvey, living four miles west of Amboy, is in the Lee county jail awaiting trial.

Miss Wernick, who is employed as a domestic at the Warren Badger home, says that she was on her way home Saturday night with her little brother, a fourteen year old lad, and they were carrying home meat and groceries. As they passed Rosbrook's dance hall a man accosted the girl and asked her to come up to the dance. She refused his repeated invitations and walked on. At the corner of Third street and Peoria avenue she discovered the man was still following her, when he spoke to her again, this time asking her to come back down town and have some ice cream with him. She told him that she could not go with him, but he was very insistent, claiming that he knew her, etc. He kept walking with her and when they got to the girl's home he offered to give her little brother a quarter if he would go in and ask the girl's father if she could go back down town. Mary would not allow this, however, and to get away from him said she would go in and ask him. She went into the house but said nothing to her father, knowing that he would not permit her to go back down town again. She went out into the back yard to call to the man and tell him that she could not go, and when she got out in the dark she was surprised to find him standing close beside her.

Harvey grabbed her and told her she would have to go and she began to struggle. The brute put his hand over her mouth and threw her to the ground, but every time he would remove his hand from her mouth to prevent her struggling, the desperate little girl would scream at the top of her voice, and the blood-curdling cries for help soon reached the ears of her father, and of Enoch Self, who lives nearby, and they came toward her at top speed. The alleged assaulter saw them coming and hurriedly decamped, and when the two men reached the spot, each from a different direction, each thought the other to be the cause of the girl's distress, (it was too dark to recognize each other) and they started in to pound each other, when the girl set them right and told of the other man, who had fled.

The girl was taken into the house and her wounds cared for. Her face was bloody and scratched and her clothes, a new dress, was caked with mud. She said the man had told her that his name was George E. Harvey, and the police were put on the case at once.

Already Arrested.
A phone call to Amboy apprised the police of the fact that Harvey had already been arrested in that city on a lesser charge and was being held. The Amboy authorities were willing to surrender their prisoner to Dixon and Sheriff Reld and Sergeant Gaffney, both of whom spent considerable time on the case, went down and got their man.

Harvey tells the same story the girl does about walking home with her, but denies the struggle in the back yard.

Harvey Bound Over.
Harvey was brought before Justice A. H. Hanneken this afternoon and was bound over to the September grand jury under the sum of \$750. Being unable to furnish bail, the young man was taken back to the county jail.

Mrs. Lowden to Entertain

Chicago, June 23.—In a few days now Castle Rest, the George M. Pullman place in the Thousand Islands, will be opened in the broad and patriarchal manner for which it is famous, in accordance with the terms of its builder's and owner's will.

So enormous was Mr. Pullman's fortune and so great his feelings for the large Pullman and Sanger family connection that he built this magnificent castle in a dreamlike situation, on one of the loveliest islands in a lovely river, in order to entertain privately, all his New York state and western relatives. The great capitalist was a New York state boy.

Unfortunately Mrs. Pullman never liked Castle Rest. She did not enjoy islands, and after the death of her husband, summered mostly at Elberon, turning over the island and house to Mrs. Lowden. It is this lovely matron who carries out annually the terms of her father's will that between the date of his father's birth early in July and that of his mother, late in August, every member of the family shall be entertained at Castle Rest as long as he or she wishes to stay.

The place is opened up, flowers are growing luxuriantly the verandas are carefully shaded, and a large corps of servants start on annually for the two months. In this wise none of the family need go vacationless, and the living relatives will be guests of the dead host in perpetuity.

Engagement Announced.

Mr. and Mrs. Rodney Ayres announce the engagement of their daughter, Nellie Hazel Ayres, to Nolan Louis Lord of this city.

We are showing some beautiful new styles in photographs, suitable for commencement pictures.

NO SECRET ABOUT WOMAN'S BEAUTY

The flashing eye, the elastic step and the brilliant complexion are never companions of organic troubles; but it is the distressed expression, aches and pains, faintness, dizziness, that bearing down feeling, and the blues that are tell-tale symptoms. If such women would only remember that Lydia E. Pinkham's Vegetable Compound overcomes such distressing symptoms, womanly beauty would be no longer a secret.

Heart Troubles, Kidney Troubles, Rheumatism and Nervous Diseases Can Be Cured,
He will be at the Nachusa house from 9 A. M. Friday, until 8 p. m. June 27.

Dr. Edwin O. Gable of Chicago, Ill.

If you suffer I want you to try my new treatment.

I have had the most marvelous success in giving relief to many cases of chronic heart disease, valvular disease, all manner of weakness, nervous diseases of the heart, pain around the heart, shortness of breath, palpitation, irregular pulse and fainting spells. I have had wonderful success in treating all forms of kidney trouble, first stages of Bright's disease, diabetes, congestion of the kidneys, backache, clogging up of the kidneys, irritation of the bladder, catarrh of the bladder, pain in the bladder and all weaknesses connected with these organs. I have had the most marvelous success in treating rheumatism, both acute and chronic, cleansing the rheumatic poisons from the blood, creating new, healthy condition so that they are completely cured, not just relieved. I am doing these things every day with my new Neuropathic System of Treatment. Many people have come to me in your city; said that the other doctors had pronounced them incurable; they had about given up hope; and have been restored to perfect health by me. I do not publish names of the patients that I cure; but I can give you private references to as many people as you want to go and see of the wonderful cures that I am making with this system of treatment. I treat all chronic weakness and disease by my Neuropathic System of treatment — treatment through the nerves, through the circulation, through the blood. It is especially adapted to those cases where there is a poison or deranged secretion or clogging up of any of the organs of the body. I say that every chronic disease can be cured if the disease has not gone so far as to destroy the tissues of the organ it has settled in. I want to prove these things. I do not ask you to take my word but I ask you to come and try my treatment. Let me explain it to you. Let me show you how it acts, how it cleanses the system, how it builds up and restores strength, vitality, and tone all over the body. I want you to know that I am devoting my life to this work, treating diseases by this system of treatment. I want to help you, if you want to be strong and healthy. There is no reason why you should go around suffering or feel tired, weak and run down, or suffer with those headaches or backaches or have the fear that you are going to die from weakness of your heart or kidneys. This system of treatment purifies, cleanses, strengthens, invigorates, opens up the kidneys, causes elimination of the poisons, makes you feel like a new person. I ask you to come and see me on my next visit to Dixon. Consultation is free. I am doing this to introduce my treatment to people who have never tried it, to show them how much superior, how much more scientific this treatment is than the old system of treatment. Send word to your friends of this trip. Remember date and the hotel. Be sure and see me if you are suffering. It may save you many hours of suffering. It may save you from a premature death.

Wilson Says He Will Accept U. S. Attorney's Resignation.

Attorney General McReynolds Accused of Obstruction of Justice by San Francisco Prosecutor.

Washington, June 23.—United States Attorney John L. McNab of San Francisco, who wired his resignation to President Wilson, together with sensational charges that Attorney General McReynolds had directed delays which threatened to defeat justice in certain criminal prosecutions, will be accepted. This was the only information that the White House gave out on the situation.

The cases are those of Maury I. Diggs and Drew C. Caminetti of San Francisco, indicted under the white slave law; and officials of the Western Fuel company, indicted for conspiracy to defraud the customs. Caminetti is a son of Anthony Caminetti, recently appointed commissioner general of immigration. McNab, a Republican holding over from the last administration, charged that "rich and powerful" influences were working to defeat the prosecution.

Attorney General McReynolds was willing to say this much for publication:

"There is every intention of prosecuting all those cases. They will be taken care of in due time by capable officials. No interest will suffer by the postponement."

The attorney general intimated he might issue a formal statement later.

Four Drown in River.
Kansas City, Mo., June 23.—Four persons were drowned in the Missouri river near Parkville, Mo., eight miles northwest of here, when a motorboat upset and with its occupants was swept down stream by the swift current. Eyewitnesses to the accident did not know the two young men and two young women in the boat, and all were supposed to be residents of Kansas City.

Milwaukee Man Dies Twice.
Milwaukee, June 23.—The family of Allard W. Smith, a real estate man, notified the newspapers of his death. When reporters called to get details of his career, however, they were told Mr. Smith had returned to life, but was in a precarious condition. Doctors who were hurriedly called an hour later said Mr. Smith had died soon after his revival.

PRISONERS MIGHT BE FREED

Many in New York Jails Are Held
Contrary to the Strict Letter
of the Law.

An examination of the prison reports of the state of New York has shown that 254 prisoners are at present serving terms in the state under illegal sentences.

Part of these prisoners claimed when on trial to be first offenders, and so got an indeterminate sentence. The law of New York provides that on second convictions no indeterminate sentence can be given.

Part of them, however, have sentences which terminate in the middle of the winter. The law of New York wisely provides that no prisoner may be released in the winter season, when work is scarce and the incentive to crime is redoubled by the hardship of the cold.

As to the first ground of illegality, other states have permitted indeterminate sentences on second convictions without discoverable bad results.

As to the second ground one can say the clamor against the courts would be less effective if judges would take more care to get on familiar and really friendly terms with the law.—Chicago Journal.

ILLINOIS WOMENWhen the 83 noble men of the Illi-
nois Assembly answered "Aye" on
the roll call of the Suffrage Bill they
added the last, but one, touch to
make the new law, affecting over a
million and a half women and the
franchise.Gov. Dunne will, without doubt,
put the final touch to the bill which
will give citizenship to the women of
the state, as also a new and great
duty to perform in maintaining the
new office.Illinois women, from past record,
will be quick to accept the new call
to duty. Henceforth, instead of the
cry, "Give us votes," they will act
the nobler part and give themselves
to the call for assistance in the great
conflict of civic and social needs.With the inception of the suffrage
movement was born the deeper hu-
man feeling for all mankind. While
great has been the growth of divers-
ified movement affecting women and
children, the underlying principle
has been the justice of equal rights
in social, political and economic life.The new law in Illinois is the me-
dium which will help make this de-
mand effective.The vigilance of woman has done
much in the present progress of soci-
ety but vigilance with the ballot in
her hand will do more than mankind
has yet dreamed of.To the men in the Senate, the rep-
resentatives of the House, and the

Kingslake on Port.

Kingslake, the historian, was polit-
ely frank. It is related that, upon one
occasion, while dining with old Dr.
Marshall, the warden of Merton, he
was asked to give his opinion of some
port wine which was supposed to be
remarkably good. "I am no judge of
port myself, Kingslake," said Dr. Mar-
shall; "but I know you are, and I
should like your opinion.""Well," said Kingslake, "I have three
ways of judging port wine. The first
is by the color, the second is by the
odor, and the third is by the flavor.
Now, the color of your wine, Mar-
shall—holding it up and looking at it
critically—"is good; the odor"—here
he held the glass to his nose for a
moment, and then added, with some
hesitation—"is far from unpleasant;
the flavor is"—here he tasted it, and
put the wineglass down hastily.

BRYAN TELLS OF PEACE PLANS

Nations to Name Representatives From Own Lands.

Washington, June 23.—With the acceptance in principle of the president's peace plan by 18 nations, Secretary Bryan has felt encouraged to develop some of the details of the plan which so far have been only generally outlined.

He made a statement touching the composition of the proposed commissions to investigate controversies.

The statement is as follows: Mr. Bryan in stating to the newspapers that 18 nations had accepted the principle of the president's peace plan gave one of the details suggested for the completion of the plan. The plan contemplates a permanent international commission and the president suggests that the commission be composed of five nations, as follows:

"One member from each of the contracting countries, to be chosen by the government; one member to be chosen by each of the contracting countries from some other country, and the fifth member of the commission to be agreed upon by the two governments, the commission to be appointed as soon as convenient after the making of the treaty, vacancies to be filled according to the original appointment.

"This is merely a suggestion. This government is ready to consider any proposal that the contracting parties may desire to make."

Quiz by Federal Commissioner May Bring Increase for Railroads on Class and Commodity Schedules.—Names States' Committee.

Washington June 23.—The United States commerce commission will make an inquiry on its own initiative into the application of the railroads east of the Mississippi and north of the Ohio and Potomac rivers for permission to advance freight rates, both class and commodity.

An order was issued by the commission denying the application of the 52 eastern lines to reopen the old advance rate case, which looked to the increase of only class freight rates. Coincidentally, the commission issued a second order instituting on its own motion an investigation of the general proposal of the railroads to increase all freight rates.

After a conference, the commission issued a third order rescinding its order of investigation and announcing that a substitute would be issued later. It was said afterward the form of the order of investigation was not satisfactory and would be changed in the forthcoming order, in phraseology rather than principle.

States Enter Valuation Quiz.

Representatives of state railroad commissions whose authority to regulate intrastate traffic was reaffirmed in the Minnesota case have demanded representation in the work of railroad valuation ordered by congress. The interstate commerce commission has appointed a board of engineers to make the valuations.

W. H. Stutzman of the North Dakota commission was admitted to the session between the valuation board and the engineering board of the interstate commerce commission. He says the conference was satisfactory.

Names States' Committee.

Columbus, O., June 23.—O. P. Goethlin, president of the Association of State Railway Commissioners, appointed a committee to represent the states in the interstate commerce board's railway valuation hearings. Among the appointees, all of whom are members of the state utilities commissions, are Commissioner Berry of Illinois and Commissioner Martin of Kansas, chairman. The committee will meet in Chicago next Saturday.

STANDARD HAS RIVAL

Rothschilts Back Walters-Pierce Oil Concern.

Company Now Being Reorganized With a Capital of \$10,000,000.

St. Louis, June 23.—The Standard Oil company will have a rival in a short time, it is believed. The Waters-Pierce Oil company is being reorganized, its capital being increased from \$400,000 to \$10,000,000. The European banking family of Rothschilds is understood to have invested heavily in the reorganization.

Henry Clay Pierce of St. Louis, chairman of the board of directors of the old Waters-Pierce company, will retain a controlling interest in the reorganized company. The Rothschilds are heavily interested in an English corporation which is a strong rival of the Standard in England.

It is said that when H. Clay Pierce last winter bought from the Standard Oil interest their stock in the Waters-Pierce company, the funds were furnished by the London house of the Rothschilds. About that time Pierce had ordered a complete set of the invoices of his company made in St. Louis and sent to him in New York before he started for London.

He is said to have laid this information before London and German bankers to induce them to put up money for the refinancing of the company. It is intimated that the property of the Pierce-Fordyce Oil association will be taken over by the reorganized Waters-Pierce company, which is to have a new name.

Why is the soda cracker today such a universal food?

People ate soda crackers in the old days, it is true—but they bought them from a barrel or box and took them home in a paper bag, their crispness and flavor all gone.

Uneda Biscuit—soda crackers better than any ever made before—made in the greatest bakeries in the world—baked to perfection—packed to perfection—kept to perfection until you take them, oven-fresh and crisp, from their protecting package. Five cents.

Worried by American "Trust."
Buenos Ayres, June 23.—Deputy Atencio gave notice that he will in- terpolate the government in the cham- ber of deputies Monday on the sub- ject of the beef trust. The notice fol- lowed an announcement that a ma- jority of the Anglo-American meat es- tablishments will close down their London service next week. Recently they notified the government that they might be compelled to close down, alleging that the American "trust" was selling Argentine meat in England be- low cost.

MUST BELIEVE IT

WHEN WELL-KNOWN DIXON PEOPLE TELL IT SO PLAINLY.

When public endorsement is made by a representative citizen of Dixon the proof is positive. You must be- lieve it. Read this testimony. Every man, woman or child with kidney trouble will do well to read the fol- lowing:

Mrs. Emiele Bott, 811 College Ave. Dixon, Ill., says: "We recommend Doan's Kidney Pills just as highly now as we did some years ago when we first gave a public statement in their praise. I was rheumatic and most of the pain was through my back and kidneys. At night I didn't sleep well and in the morning was all tired out. I was nervous and dizzy and my kidneys were out of order. I tried different remedies, but was not helped until I used Doan's Kidney Pills, which I got at Leake Bros. Co.'s drug store. They made me strong and well."

NEW YORK LANDS.

An unusual opportunity is offered in western New York to secure fertile, well located, well improved farms at remarkably low figures. The situation is unusual. Here are farms ideally located so far as markets are concerned. You are at the door of the world's greatest markets; with in a few hours' ride of 40,000,000 people, who must be fed. These farms produce a great variety of crops and are in the Fruit Belt of western New York. Send for our advertising matter, but in the meantime consider carefully some of the bargains which we offer. We have 300 farms to select from.

Farm 103—98 acres, \$145 per acre \$14,200. 2 miles from station; smooth land, no stone, no hills, well drained; easy slope; overlooking beautiful Seneca Lake; has a little timber; good pasture; well traveled roads; apple orchard of 4 acres; 1 acre pears. House, 10 rooms, in good repair; big cellars; eistern, well; 3 big barns; all outbuildings in good shape. This farm will soon bring \$200 to \$250 per acre.

Farm 107—98 acres, \$100 per acre, \$9,800. Not far from No. 103 above mentioned, 2 miles from 2 rail road stations; railroad switch on the land. View of the lake. Smooth, fertile soil; no stone, no hills, good drainage; nearly new 8 room house, cellars, well 3 big barns, new orchard of 2 acres, apples and peaches. Improvements as a whole are worth not less than \$5000.

Farm 122—88 acres, \$130 per acre, \$11,500. Beautiful farm; 2 1-2 miles from two cities; one of 3500 and the other of 8000. Could not be in a better location. On gravel road; good neighborhood; near school. Soil light loam, well drained. 3 acres of hard maple timber; make your own sugar and syrup. 2 acres of orchard in splendid condition—full bearing. Also pears, cherries, plums, grapes; all fruits do well. Good fences. Fine old stone house, 9 rooms, with big cellar; new barn 65x34, with other sheds and outbuildings. You cannot replace the improvements for less than \$6000.

Farm 183—80 acres, \$150 per acre, \$12,000. This house is in the village, the farm lies on the edge; paved street in front of the house; cement walks. Looks like city property; a beautiful home; 12 room house, modern, with furnace heat. Barn is in good repair; painted up, basement, cow barn with stanchions for 6 head of cattle. The soil is rich, sloping to the east, and there is a view of Cayuga Lake from the house. Improvements here are worth more than half the value of the property.

Farm 235—118 acres, \$80 per acre, \$9,440. 4 1-2 miles from city of 3500 people, 1 mile from a village. Soil, sandy loam, slightly rolling; in good neighborhood, surrounded by good farms. Improvements are in good shape. House, cobble stones, 12 rooms; good cellar; 2 barns, hog house and other outbuildings. This farm is a good producer and will soon pay for itself.

Farm 248—22 acres, \$165 per acre, \$2630. This will please a man looking for a small farm; only 2 1-2 miles from Geneva, with 14,000 people. Loam soil; no stone; some timber not yet cleared. There are 14 acres under cultivation, being rapidly set out to fruit; apples, pears, peaches and cherries. 150 cherry trees just coming into bearing. They ought to pay for the farm. Splendid neighborhood; good roads. Ideal for poultry and fruit; house of 9 rooms, furnace; small barn; large poultry house.

Farm 252—180 acres, \$90 per acre, \$16,200. Only 2 1-2 miles from city of 8000. Soil, gravelly loam,

good drainage; overlooking Canandaigua Lake. Farm is well tilled and is noted throughout the country for its fertility. Apple orchard of 4 acres in full bearing. There is always fruit on these New York farms. State highway runs through farm, adding to the value of the place. House of 8 rooms; 2 large barns. Buildings are insured for \$3500. The renter of this place recently died, after having farmed there for 23 years. The owner cannot get another as good and will sell.

Farm 256—90 acres, \$75 per acre, \$6750. Only 1 mile from railroad station; land rolling, well drained. 4 acres of apples, 2 acres of black berries; small field of alfalfa, which will grow anywhere in this vicinity. House of 8 rooms, barn and other outbuildings. The location makes this very attractive, and a bargain at the price.

Farm 282—37 acres, \$12,580. This is really city property, the house being inside the city limits of Canandaigua, the County Seat of Ontario County, with 8000 people. There are 20 acres of muck land on this farm, well adapted to market gardening. Such land in some places sells as high as \$500 an acre. The improvements are exceptionally good. House, 14 rooms, modern in every respect; almost new; finished in oak and chestnut. A big barn and other conveniences. Ideal for a home.

Farm 283—168 acres, \$140 per acre, \$23,520. This is an ideal dairy farm, being 3-4 mile from the post office of Canandaigua, a city of 8000 people. Close to State road; improvements high class; 3 acres of apple orchard; no waste land; no stone; 24 acres of alfalfa. Farm is well underdrained; soil, dark gravelly loam. 2 sets of improvements; the main house has 14 rooms, cellars, bath room; water piped throughout. There is also a tenant house of 8 rooms. Big cattle and hay barns, cement floors; every convenience for operating a dairy. Water piped to the barns; silos; feed cutter; poultry house, tool house, etc.

Farm 301—210 acres, \$25 per acre, \$5250. An ideal stock farm. Rolling land; good spring; well drained. Fine young apple orchard of 50 trees; house, 10 rooms and cellar. Water piped to house and barn from spring. Barn has basement, stanchions for 11 cows. 75 acres of timber. Excellent stock farm, but not as close to market as others mentioned.

We will sell these farms on EASY TERMS, generally one-third in cash and balance one to ten years at 5 1-2 per cent and 5 per cent interest. Conditions are in every way attractive. There are good fruit lands if one wants to go into fruit growing, and fruit is a more certain crop in this vicinity than anywhere else in the United States. We can demonstrate this. Come and see what we are offering.
